

Blount County Government

TO: Blount County Commissioners

FROM: Highway Department

RE: Whites Mill Road Bridge

DATE: June 20, 2024

It has been found that the bridge on Whites Mill Road has deteriorated to the point that a repair needs to be made. The current condition of the bridge is not safe for the citizens of Blount County to travel. Therefore, the Blount County Highway Department is requesting \$248,396.18 which would allow for the necessary repairs to be made to the bridge to make it safe for travel for the citizens of Blount County.

If this project is not funded, the bridge will continue to deteriorate possibly leading to a complete shutdown of the roadway.

A handwritten signature in black ink, appearing to read "Jeff Headrick".

Jeff Headrick
Blount County Highway Superintendent
