RE: Appropriate insurance recovery check from accident involving highway vehicle

DATE: October 7, 2022

A check from the auto insurance company was received to cover damage to the Highway Department's 2008 Chevy Trailblazer involved in an accident. The amount received does not cover replacement costs for the vehicle and a rental will be needed until a replacement can be acquired. Request appropriation of the insurance recovery check from the accident to go to the Lease Payment account to cover rental expenses.
