

To whom it may concern,

Maryville Top Shop Inc. is in the process of purchasing a secondary location in Blount County from Lawrence Moyers. The property is located at 820 Binfield Road, Maryville, TN 37801. Maryville Top Shop Inc. would like to use this building for the same purposes we use our primary location at 110 Garrett Lane, Maryville, TN 37804.

We warehouse cabinets and countertops, as well as machine and fabricate countertops. We want to have the same usage at the 820 Binfield location to expand our business and give us more indoor storage. Our hours of operation would be the same as the 110 Garrett Lane location, 7:30 A.M. to 5:00 P.M., Monday through Friday.

We intend to use the 820 Binfield location to warehouse cabinets, and use natural stone/quartz manufacturing equipment such as CNC machine, Bridgesaw, Waterjet, and Water reclamation equipment.

OSHA has conducted testing at our primary location at 110 Garrett Lane, and we meet all standards of safe practices for them, including the sound levels/decibel levels. Though we are required to wear hearing protection the equipment we run is at a safe decibel level. Also at our primary location, we are in extreme close proximity to about twenty-four apartments and never have noise level complaints. We appreciate your consideration in allowing us to use 820 Binfield the way that has been described in this letter.

Thank you,

Maryville Top Shop Inc.
