Good Morning Amy, as noted in my previous email from, 8/29/2022, TDMHSAS has approved a work-force development rate increase which will impact the recovery courts. At this time, please see the contract(s) listed below, as well as, the adjusted rate increase.

Contact #: 74393

Current Budget: \$70,000

Increase (10%): \$7,000

New Contract Total: \$77,000

Before we begin the process to amend your current contact with these additional funds, please send a written proposal for how you plan to utilize this increase to develop or enhance your workforce. Please submit this no later than **September 16, 2022**. Once we have approved the proposal, we will send your budget workbook to you for revision.

In addition, your court will receive additional funding in the amount of \$20,000. Thus, your total budget for FY23 for Contract #74393 is \$97,000. This additional amount can be budgeted for any program needs, and you will include how you plan to use these funds in the aforementioned proposal as well.

Thank You,

Jill
