Mr. Walker,

Thank you for applying for the Tire Environmental Act Program (TEAP) grant. We received many outstanding applications for grant funding this year, making the selection process extremely difficult and competitive.

We are excited to announce that you have been selected as one of the grant recipients and have been approved for the full requested grant amount of \$160,000.

Over the next couple of weeks, we will begin developing a draft grant contract and will give your team a chance to review it and provide any feedback before finalizing anything. During this time, it is important to make sure that you are registered with the State as a vendor/supplier. This [link](#) will provide you instructions on how to register. If you have previously completed business with the State, you will most likely already be registered, so won't need to reregister. However, please make sure that the information in the system is up-to-date and accurate.

Please reach out if you have any questions as we work through this next phase of the grant process.

Thank you,
Chris
