FROM: General Admin Projects

RE: Stairway Retread

1. Proposal (what is the new item/service being requested) This project will replace the existing stair treads and landings in the four staircases in the Courthouse. The current stair treads are damaged and could potentially pose a safety risk for users.

2. Current Operations (how are operations without the request and impact if not funded) The project scope includes the replacement of all stair treads located in the Courthouse. By replacing the damaged treads we are preventing a potential injury.

3. Impact if funded (provide summary if the request is approved) We have identified a flooring supplier that utilizes one of the approved cooperative contracts approved by Commission. We will be receiving the competitive pricing that was negotiated as part of the process, and this will allow us to make the repairs in a timely fashion.
