RE: Library re-roofing project

DATE: August 31, 2022

The Blount County Library requests a budget increase to the building improvements account from fund balance to appropriate funding for the re-roofing project. The project will include roof repairs and repairs to the clock tower.

The project is expected to cost \$946,980 total. We will be reimbursed \$378,792 from Maryville and Alcoa for their portion of the total project making Blount County's portion \$568,188. The county's portion is going to be paid from Federal Covid Funds received in FY22.
