RE: Recycling Center Compactor

DATE: August 31, 2022

During the FY 22/23 budgeting process, Commission approved a new compactor for the Recycling Center in the amount of \$53,000.

Upon receiving updated quotes, the cost is actually \$23,000. In addition, it has been determined that funds for this project need to be realigned from Fund 176 to Fund 101.

This request is to reduce fund 176 by \$53,000 and increase fund 101 by \$23,000.
