

Attached are two grant worksheets. One is for the Convenience Center grant application and the other for the Used Oil grant application.

As you may be aware, the deadline for these grant applications to the Tennessee Department of Environment and Conservation was October 1st of this year. The state has allowed us additional time to apply for grant funds for the convenience center and to apply for funding for used oil collection. Both are competitive grants and both applications are now due by October 16th.

Should you need any additional information don't hesitate to call.

Thanks

Doug Hancock
