CC: Laura Fields
Date: January 7, 2021
Re: Capital Plan Amendment

Please accept this amendment to the capital plan. It is necessary for the Highway Department to add two snow plows to our fleet from fund 176.

These plows will allow two more trucks to perform snow removal in the event of winter weather. Furthermore, the plows will be attached to our new Ford F250 trucks which will allow us to enter onto smaller roads that our dump trucks cannot maneuver.

We plan to use funds already appropriated for highway equipment in our Capital fund 176 budget to purchase these snow plows.

Please let me know if you have any questions.
